

NESTING MODULE

COMPATIBLE WITH ALL OUR BASES

Convert any or part of any pod & rail cnc machine into a nesting table.
It is placed over four **Vacuum-cnc** bases, facilitating assembly and disassembly.
The best choice for precision work on the Z-axis on pod & rail machines.

Ref: **MMN**

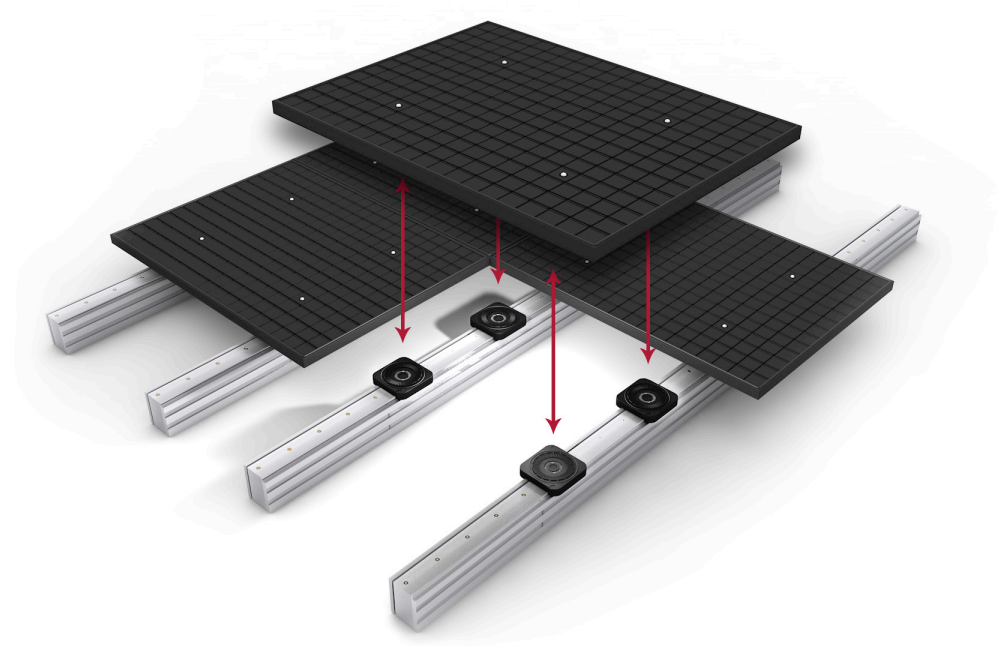

MEASURES:

680 X 910 X 30 mm

Each module has four anchor points to hold the martyr, essential both for the proper functioning of the tables and to extend their useful life.

Possibility of adding extra vacuum intakes, to increase the flow rate and allow greater division of the work table.

*(Possibility of making different heights and shapes depending on the customer needs)
